ATTEND TO YOUR COLDS -A case of five years anding cured by DR. KRYSER'S PROTORAL SYRUP Most Complete Establishment

Dr. Kaysen:—My wife has been afflicted with a bad cough and difficulty of breathing, for five or six years, which, for several years back, had gradually increased in violence. The complaint has been hereditary, and she had been treated by seweral physicians without any relief. In this state of her case, I procured some of your Pectoral Cough Syrup. I bought, the first time, a fifty cent bottle, which relieved her vary much; I then called and got a dollar bottle, which cured her entirely, and she has now no trace of the former disease, except weakness. I would also state that I used the medicine mysulf to a cold and cough. The medicine cured me by taking one dose I express my entire satisfaction with the medicine, and you are at liberty to publish this if you desire to do so.

Alderman Fifth Ward. WITH DISPATCH!

DR. Krysen:—Although not an advocate of Patent Medicines, in general, it affords me pleasure indescribable to recommend your Fectoral Syrup. As a medicine it is well worthy the attention of any person who may in any manner be affilioted with coughs, colds and hoarseness of any hind, and for the peculiar qualifications for removing all that disagreeable sensation attending a severe cold. moving all that alpagreeasie sensation attention a severe cold.

I have been, more or less, in my life, affected with the severest of colds and hearseness. At times my throat would become so closed as to prevent my speaking above a whisper, and by taking a few doses of the above flyrup it would relieve me entirely.

In recommending this medicine, I must unhesitatingly say that it is the best remedy I ever found, purporting to cure the above, nor should any family be without this remedy for diseases so prevalent.

Yours, most respectfully,

EDWARD J. JONES,

I take great pleasure in saying that it is all you say it is. Benoched the noise out of my cough and the worst one I was ever afflicted with: I have not used more than one-half of the bettle, and I can and do wish that all who are afflicted would give it as fair a trial as I have done, and they will be proud to say, "It is no quack medicine." I would not suffer another such an attack for any consideration, or at any cost. I am considerate can breathe more freely than I ever did. A GREAT OURE BY DR, KEYSER'S PECTORAL BYRUP.—I live in Peebles township, Allegheng county. I had a coughing and spitting, which commenced acout the 4th of February last, and continued eight months. I employed the best physicians in the country, and my cough continued annuated until early in October. At that time I was advised to try your PECTORAL COUGH SYBUP, which I did, and after I had taken one bottle I was entirely free from the coughing and spitting. I had despaired of ever getting well, and I think it should be known that this valuable remedy will do for others what has done in my case. Witnem-B. M. Kurn

A WONDERFUL OURS.—Some time ago, an old neighbor of mine was very Ill, with a bad cough which every one supposed to be consumption. His relatives teld me that he had taken every remedy they heard of without benefit; his brother came to see him die, and all were confirmed in the belief that he could not live. I had about the third of a bottle of your Fectoral Syrap, which I gave him, and it entirely cured him, to the aston-lehment of all. What makes the case more remarkable, is the extreme age of the man, he being about eighty years old. I have no doubt the Pectoral saved his life.

*STOP THAT COUGHING."—How can I do it? "Go o Espec's on Wood atreet and get a bottle of his Cough Pectoral, and if that don't care you, your case must be tesperate indeed." This is a specimen of the collegny one hears almost every day in cold catching periods of coperate inceed. An as a special contenting periods of the year. And we can, from setual experiment, theer fully concur in the adviser's admonition as above, for we have tried the "Fectoral." in a most stubborn case, with entire success. Near two weeks ago we went to Pittsburgh, with one of the most distressing, contrary, mutish, unsubduable coughs we ever experienced since our advent upon this mundance sphere. We coughed steadily and laboriously for one whole week, in hopes of string it out, but it was no go. In fact it seemed rather to have limpoyed by practice, and to have sequired strength, potency and distressibility by the operation. In this stage of the siegn, we coughed our way to Keyser's, 140 Wood St.—prounced fifty cent bottle of the "Pectoral;" took it according to directions, and in forty eight hours we were master of the field, the enemy having ucconditionally surrendered, after a brief last unequal conflict with so formidable an adversary as Keyser's famous "Cough Pectoral."—Prouncefile Chepper, Dec. 14, 1259.
